

INTEGRATED RESCUE SYSTEM

por. Ing. Klára Kyndlová
Prague Fire Rescue Service

Integrated Rescue System

- system, which is designed to co-ordinate rescue and liquidation operations in case, where situation requires deployment of forces and means of several emergency services,
- the coordinated actions for preparation for emergencies,
- co-ordinated by Ministry of Interior,
- set up firmly by the law,
- from 2001,
- IRS was established due to necessity of everyday joint rescue operations,
- documents - joint Standard Operating Procedures (SOPs) - so called typical activities as well, for co-ordination during specific emergencies.

Integrated Rescue System

- Main emergency services
 - Fire and Rescue Service CR (FRS CR) and Fire Units,
 - Providers of Medical Rescue Services,
 - Police CR.
- Other emergency services
 - allocated forces and means of the armed forces (Army),
 - other rescue services,
 - civil protection facilities,
 - public health protection authorities.

Operational and Information Centres

- permanent co-ordination of the IRS
 - the operational and information centres of regional FRS and,
 - the Operational and Information Centre of the General Directorate of FRS CR.
- **Emergency Call Numbers**
- **112 – European Emergency Number**
 - notification of each extraordinary situation, esp. when the caller doesn't know which of national emergency call number is suitable to use,
 - for foreigners (allows to speak in a foreign language).
 - calls are dispatched into Operational/Call centres of FRS CR, together with emergency calls to 150,

- **150 – FRS CR**

- notification of fires, natural disasters, accidents and emergencies when fire extinguishing, extrication, disposal of HazMat etc. is necessary,

- **155 – Providers of Medical Rescue Services**

- in case of sudden health problems, injuries or in accidents with health consequences,
- calls are dispatched into operation centres of medical rescue services.

- **158 – Police CR**
